DJK Jozi is a small, Johannesburg based company that, with a great deal of passion, produces a range of natural skin care products.

Night Repair

Firming

Skin Tightening

Moisturising

Healing

Solutions

Anti-Ageing

Anti-Wrinkle

Hydration

Even Skintone

Protects

Lifting

Revitalising

Most of us want to look and feel as good as we possibly can for as long as we can.

DJK Skin Care products help our clients on their journey of successful ageing.

When developing products, the focus is not only on creating a product that works, but also on how it can affect health and the environment.

The founders believe that it is the responsibility of every business, large and small, to ensure that they include sustainability as one of their business principles.

When sourcing raw materials, such as essential oils or essences this principle is uppermost in the minds of DJK employees.

Thought is also given to the impact that the product might have on the health of the user and indirectly on the health of others as part of the user cycle.

For example the DJK face washes, shampoos and body washes do not contain ingredients that could harm the environment as they are washed down the drain.

Packaging is carefully selected to ensure that the standards of health and environmental sustainability are maintained.

The focus is on the quality of the content, rather than a 'pretty' container.

Consequently, DJK products contain quality ingredients, packaged simplistically, resulting in a competitively priced skin care range.

A unique feature of DJK Skin Care is the **'Specially For You'** range. Because the founders of DJK Skin Care are personally involved and their Skin Health Scientist has the expertise and experience, they are able to offer a unique **'Specially For You'** range of products, developed specifically to meet a range of individual skin health problems.

A good skin regimen starts with a thoroughly cleansed skin.

Holistic Makeup Remover and Pre-cleanse
